You could be no safer  
When the things that  
seem to matter**

tumble into the sea  
You can drift away  
Into Eternity

After you witness all the  
actions of your dreams  
Nothing here is real as it seems  
Keep praying for a  
breakthrough  
You hold the key  
Spirit is rising through the  
darkest night  
To places you have never been

Put yourself into the  
Hands of God  
You could be no safer  
When the things that  
seem to matter  
tumble into the sea

Put yourself into the  
Hands of God  
You could be no safer  
When the things that  
seem to matter  
tumble into the sea  
You can drift away  
Into Eternity

### 13. We've Found Love

M. Blood © (cc)

(A Love Song to You and  
The Divine As One)

Once upon a time my life  
was lonely  
Until I realized I had been blind  
To all that life has to offer  
My loneliness has since  
crossed the tide  
When I saw the sun first rising  
My heart it opened to the truth

That my light had always been  
there burning  
And now I can share it  
all with you

Chorus:  
Now that We've Found Love  
There's no need to hide  
Now that We've Found Love  
from deep down inside  
Together we'll climb  
every mountain  
Together we'll see it through

Wisdom love and  
understanding  
And strength to do what  
must be done  
The time has come to teach  
what we've been learning  
Together we'll do it with  
this song

Chorus repeat

You and I've discovered more  
than we can see  
All of life's treasures we're  
living in a dream  
The world's a better place  
better than it's been  
Now that we've found  
Divine Love
